Kavanaugh's Humorous Dramas for School Exhibitions and Private Theatricals

This study will endeavor to present, in simple and concise form, a survey of this continuous dramatic movement from its earliest recorded expression to contemporary moments under a single cover. Since to know thoroughly the dramatic output of any one period might command the industry of a lifetime, the task is a colossal one and precludes any pretense at completeness; the treatment is suggestive rather than informative, and should be supplemented by a study of the plays indicated under each section. After all, the important thing is not the painful piling of fact upon fact but gaining an intelligent working knowledge of the whole and knowing exactly where to turn for detail when it is needed. The information has been gathered from many works upon the various phases, to which the writer is deeply indebted, all of which are indicated in the bibliographies. We purpose, then, to take a sort of "Cook's Tour" over the whole domain of the drama, touching the main points of interest, and leaving the reader to return and explore at leisure.

EPRESENTATIVE BRITISH DRAMAS

Japanese nō theatre or the drama of 'perfected art' flourished in the fourteenth and fifteenth centuries largely through the genius of the dramatist Zeami. An intricate fusion of music, dance, mask, costume and language, the dramas address many subjects, but the idea of 'form' is more central than 'meaning' and their structure is always ritualized. Selected for their literary merit, the twenty-four plays in this volume dramatize such ideas as the relationship between men and the gods, brother and sister, parent and child, lover and beloved, and the power of greed and desire. Revered in Japan as a cultural treasure, the spiritual and sensuous beauty of these works has been a profound influence for English-speaking artists

including W. B. Yeats, Ezra Pound and Benjamin Britten.

Instead she's the set designer for the drama department's stage crew, and this year she's determined to create a set worthy of Broadway on a middle-school budget. But how can she, when she doesn't know much about carpentry, ticket sales are down, and the crew members are having trouble working together? Not to mention the onstage AND offstage drama that occurs once the actors are chosen. And when two cute brothers enter the picture, things get even crazier!

Chinese and Japanese Music-Dramas is the result of a conference on the relations between Chinese and Japanese music-drama held at the University of Michigan, Ann Arbor, on October 1-4, 1971. In addition to the Association for Asian Studies, four U-M departments participated in the conference: the Center for Japanese Studies, the Center for Chinese Studies, the School of Music, and the Speech Department. One important inspiration for the creation of such an interdisciplinary conference was the fact that each participant had found, after years of individual research on music-drama in East Asia, consistent frustration caused by attempts to deal on their own with multiple cultural and technical problems. Another motivating force was an awareness among many members of the four disciplines involved that the topic is in fact one of the largest untouched fields of scholarly endeavor in both Asian and theatrical studies. The collection opens with J. I. Crump's exploration of the Ming commentators who began to subject Yüan musical drama to the same critiques as other literature from the past. In the second chapter, Rulan Chao Pian looks to the structure of arias in Peking Opera for clues about what distinguishes this art form. William P. Malm turns to three key sources for the performance conventions of Japanese Noh drama to glean any Sino-Japanese music relationships that exist in technical terms and practices. In the fourth essay, Carl Sesar analyzes a Noh play that stages the tension between Chinese influence and Japanese originality. Roy E Teele concludes the volume with a formal study of Noh play structure to assess lineages of influence from Chinese dramatic forms. After each contribution, the editors print a transcript of the conference participants' discussion of that paper, providing the reader with a detailed and nuanced view of how the contributors understood and responded to each other's work.
