The Executioner's Heart

1926. New York. The Roaring Twenties. Jazz. Flappers. Prohibition. Coal-powered cars. A cold war with a British Empire that still covers half of the globe. Yet things have developed differently from established history. America is in the midst of a cold war with a British Empire that has only just buried Queen Victoria, her life artificially preserved to the age of 107. Coal-powered cars roar along roads thick with pedestrians, biplanes take off from standing with primitive rocket boosters, and monsters lurk behind closed doors and around every corner. This is a time in need of heroes. It is a time for The Ghost. A series of targeted murders are

occurring all over the city, the victims found with ancient Roman coins placed on their eyelids after death. The trail appears to lead to a group of Italian-American gangsters and their boss, who the mobsters have dubbed 'The Roman'. However, as The Ghost soon discovers, there is more to The Roman than at first appears, and more bizarre happenings that he soon links to the man, including moss-golems posing as mobsters and a plot to bring an ancient pagan god into the physical world in a cavern beneath the city. As The Ghost draws nearer to The Roman and the center of his dangerous web, he must battle with foes both physical and supernatural and call on help from the most unexpected of quarters if he is to stop The Roman and halt the imminent destruction of the city. From the Trade Paperback edition.

Welcome to the bizarre and dangerous world of Victorian London, a city teetering on the edge of revolution. Its people are ushering in a new era of technology, dazzled each day by new inventions. Airships soar in the skies over the city, whilst ground trains rumble through the streets and clockwork automatons are programmed to carry out menial tasks in the offices of lawyers, policemen and journalists. But beneath this shiny veneer of progress lurks a sinister side. For this is also a world where lycanthropy is a rampant disease that plagues the dirty warehouses of Whitechapel, where poltergeist infestations create havoc in old country seats, where cadavers can rise from the dead and where nobody ever goes near the Natural History Museum. The Immorality Engine is the third in the Newbury and Hobbes series.

The Solaris Book of New Fantasy

Compelling, moving, and beautifully written, the interlinked stories that make up *We Should Never Meet* alternate between Saigon before the city's fall in 1975 and present-day "Little Saigon" in Southern California---exploring the reverberations of the Vietnam War in a completely new light. Intersecting the lives of eight characters across three decades and two continents, these stories dramatize the events of Operation Babylift, the U.S.-led evacuation of thousands of Vietnamese orphans to America just weeks before the fall of Saigon. Unwitting reminders of the war, these children were considered *bui doi*, the dust of life, and faced an uncertain, dangerous existence if left behind in Vietnam. Four of the stories follow the saga of one orphan's journey from the points-of-view of a teenage mother, a

duck farmer and a Catholic nun from the Mekong Delta, a social worker in Saigon, and a volunteer doctor from America. The other four take place twenty years later and chronicle the lives of four Vietnamese orphans now living in America: Kim, an embittered Amerasian searching for her unknown mother; Vinh, her gang member ex-boyfriend who preys on Vietnamese families; Mai, an ambitious orphan who faces her emancipation from the American foster-care system; and Huan, an Amerasian adopted by a white family, who returns to Vietnam with his adoptive mother. *We Should Never Meet* is one of those rare books that truly takes an original look at the human condition---and marks the exciting debut of a major new writer for our time.
